RE: JOY MELLINS

While Joy was Company Director at Theta Films, (also known as Milcoz Films), we had many opportunities to work together within my capacity then as Head of Production and Development at The Future Film Group.

Her work ethic was always one of total dedication and her support within the industry is a clear demonstration of her ability and knowledge of film making.

We have remained in contact over the years, and I am delighted to hear of her new project, which appears to have a lot of potential.

King regards

Carola Ash
